

Climate Change and Regional Challenges

GROUP WORK

Group Work

- We break into 3 work groups
- Focus on your in country situation and regional overlaps
- Where we are, what we face and what's next?

Key questions

- What is the EU enlargement actually bringing to climate change policy/practice in the region
- Internal/External factors coming into the picture (e.g., Institutions, capacity needs for the NGOs regarding climate policy, public)

Driver and Barriers

- **DRIVERS:**

- What supports adoption of progressive policies and measures?
- Elements of the EU enlargement that could be exploited to its advantage
- Key issues that could give the civil society a leverage.

- **BARRIERS:**

- Why we do not see progressive policies and measures?
- elements in the environment that could cause trouble for the outcomes of Climate *acquis* and enlargement
- characteristics that place the environmental movement at a disadvantage in the enlargement process

- Post – in stickers: **What is needed to address the barriers?**
- Your NGO perspective
