

ENVIRONMENT AND CLIMATE REGIONAL ACCESSION NETWORK (ECRAN)

Introduction
Ike van der Putte

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Project summary

Duration	36 months
Implementation period	01 October 2013 – 31 September 2016
Value	4,999,720 EUR
No of Key Experts	4 (1290 man-days)
Non-key experts	4409 man-days
Beneficiary countries	Albania, Bosnia and Herzegovina, Croatia, Macedonia, Montenegro, Kosovo*, Serbia and Turkey

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

From RENA towards ECRAN

- Follow up of the Regional Environmental Network for Accession (RENA), building on the results achieved in the field of environment and climate change;
- Endorsement by the beneficiaries: Join Statement endorsed during the 3rd ministerial Meeting (September 2012, Brussels, Belgium).

Overall objective (same as in RENA):

“ to strengthen the regional cooperation between EU candidate countries and potential candidates and assist them on their way towards transposition and implementation of the EU environment and climate *acquis* and policies “

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Results to be achieved

Improved institutional set-up and technical working arrangements established;

Enhanced public participation in environmental and climate planning and decisionmaking process;

Improved quality of transposition and implementation of the EU environmental and climate *acquis*;

Improved skills in relation to enforcement of the legislation;

Improved strategic planning and investments;

Experience-sharing and networking activities established;

Enhanced cross-border cooperation in relation to environmental and climate policies, legislation and investments.

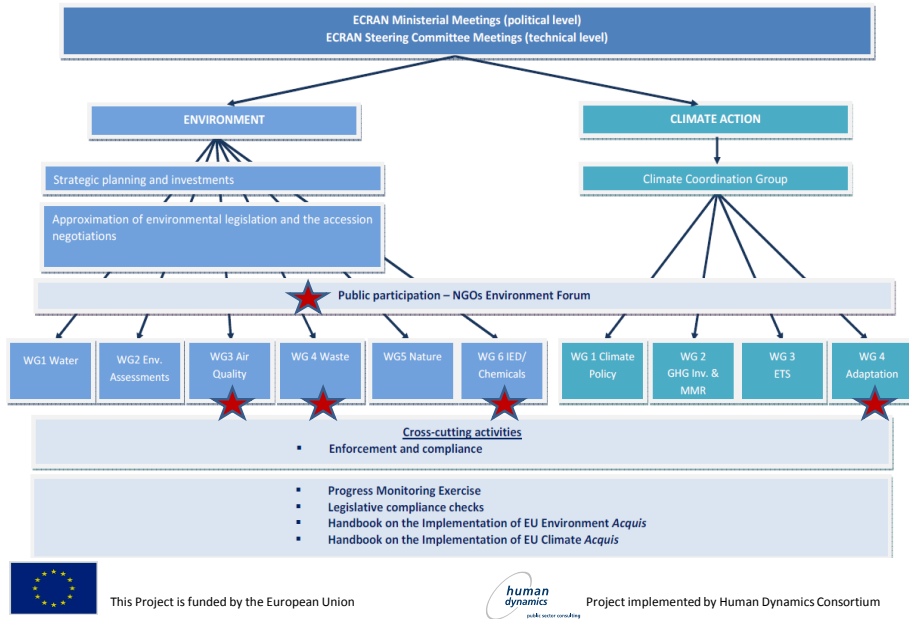

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Enforcement and compliance (ECENA) Working Group

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Approach ECENA Work Plan Development 2013 -2016

The activities for the period 2010-2013 (RENA) were based on a Multi Annual Work Plan with:

- Training and exchange,
- Institutional and methodological development,
- Cross border enforcement.

The activities planned under ECRAN will be built on the RENA results.

Since the work of inspectors and permit writers has to be more coordinated/ connected to other activities within the environmental protection area, it has been decided that ECENA under ECRAN should be of **cross cutting** nature.

This is particularly important as the work of ECENA is dealing with both implementation and enforcement of the EU acquis. Cooperation with policy makers and law drafters has to be strengthened in order to enable developing better implementable legislation.

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Activities/Tasks to be implemented

:

- 1.2.1 Capacity building on compliance with environmental legislation
- 1.2.2 External country assessments
- 1.2.3 Methodological development - application of IRAM/easy Tools
- 1.2.4 Compliance with REACH/CLP Regulations;
- 1.2.5 Trans frontier Shipment of Waste (TFS);
- 1.2.6 Inspection and enforcement in other policy areas;
- 1.2.7 Inspector's participation in networking activities.

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Task 1.2.1 Capacity building on compliance with environmental legislation

The trainings (for inspectors and permit writers) are designed as a cross cutting activity, in such a manner that the training programme will allow participation of policy makers and legal drafters from other relevant WGs members such as Waste, Air, Water, etc.

No	Date	Key outputs
1	mid-January 2014	Training Needs Questionnaire and Training Needs Assessment. Proposals for pilot industries for common inspection. TNA report
2	January - February 2014	Training Methodology, Training Programme and Training Materials
3 - 10	8 Regional 3-day Training Workshops, April 1 2014 – May 2016	Training IED, selected directives (SEVESO), common inspection with cross-cutting elements in Inspection management and planning , IED linkages a.o. with ambient water and -air quality, waste, EIA, chemicals and nature legislation. Training Report

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Task 1.2.1 Capacity building on compliance with environmental legislation

Training carried out until April 2015

No.	Date	Key output
1	20 -22 May, 2014	1 st regional training, Zagreb, Croatia with presentation materials, workshop report including evaluation. The cross-cutting issue handled was IED/WFD interactions part 1. Site visit: Lipovica, Aluminium casting (IPPC)
2	10 – 12 September, 2014	2 nd regional training, Skopje, FYR of Macedonia, with presentation materials, site visit/common inspection (PIVARA Brewery, IPPC), workshop report including evaluation. The cross-cutting issue handled was IED/WFD interactions part 2.
3	Training 18 - 20 November, 2014	3 rd regional training, Istanbul, Turkey, with presentation materials, workshop report and evaluation. Site visit/common inspection (Rayon Textile Industries, IPPC) . Cross-cutting IED/WFD final part (3).

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Task 1.2.1 Capacity building on compliance with environmental legislation

Training to be carried out after 01 April 2015

Country	IED installation to be visited
Montenegro	LCP, April (21-23) 2015
Albania	Oil production, 8-10 September 2015
Bosnia and Herzegovina	Metal processing, 17 -19 November 2015
Serbia	Tbd, April 2016
Kosovo*	Tbd, Ferro Nickel, June 2016

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Task 1.2.2 External country assessments

The assessments pay specific attention for the functioning of the environmental inspection cycle. This task is to be closely coordinated with the activities related to compliance checks (ECRAN Component 1, Activity 1.4) and screening reviews (ECRAN Component 2, Activity 2.1).

This activity is to be carried out **“on request”** i.e. if there is a request from the Commission side or from the beneficiaries to check the level of implementation and enforcement for a particular piece or pieces of EU legislation.

To avoid duplication of work, this activity is now envisaged to be combined with **IMPEL IRI's** (review initiatives) that are planned for FYR of Macedonia, Turkey and Kosovo*

No.	Date	Key outputs
1	January 2014-October 2016	Up to eight Assessment Reports/IMPEL IRIs delivered.

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Task 1.2.3 Methodological development - application of IRAM/easy Tools

For SEVESO and IED the competent authority must draw up inspection plans and programs for installations and establishments, including the frequency of site visits. These frequencies should be based on a **systematic risk appraisal**. IRAM is now (considered to be) used by Inspection Authorities of Austria, Belgium, Croatia, Czech Republic, Denmark, Estonia, Finland, France, Georgia, Germany, Greece, Iceland, Italy, The Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, and Turkey

To disseminate the useful IMPEL IRAM easy tools methodology, 2 regional trainings are to be organised for all ECRAN beneficiary countries at a general level.

No.	Date	Key outputs
1	8-9 October 2014	Regional Training Workshop 1, Ankara, Turkey, methodology, materials and report
2	6-7 October 2015	Regional Training Workshop 2, Zagreb, Croatia methodology, materials and report
3	Kosovo* and TBD	National training courses methodology, materials and reports (if requested) Request from Kosovo* is under preparation

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Task 1.2.4 Compliance with REACH/CLP Regulations

REACH and CLP are regulations and are therefore directly applicable. As they enter into force, they will automatically form part of Member States' national laws. In order to enable REACH and CLP to operate effectively in practice, Member States are obliged to establish the necessary arrangements for their implementation

The enforcement of the requirements of the REACH and CLP Regulations involves different enforcement authorities and other bodies. The environmental inspectorate can play a coordinating role. **(Preparatory activities)**

No.	Date	Key outputs
1	Postponed to 16-17 September 2015	Regional Training Workshop 1, methodology, materials and report (Croatia)
2	14 - 15 October 2015	Regional Training Workshop 2, Turkey methodology, materials and report
3	TBD	National training courses methodology, materials and reports (if requested)

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Task 1.2.5 Trans frontier Shipment of Waste (TFS)

To continue the work on what has been accomplished within RENA together with IMPEL, it is proposed to organise up to 2 (2-day) regional trainings combined with a site visit to consolidate and increase the know-how and improve the required institutional structures. A study visit in an EU MS will be taken up. Cooperation with IMPEL is again envisaged

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Task 1.2.5 Trans frontier Shipment of Waste (TFS) Training carried out until 01 April 2015 and planned training

No.	Date	Key output
1	2-3 July 2014	1 st regional training, Vukovar, Croatia, with presentation materials, site visit/common inspection at the Bajakova border crossing (Croatia/Serbia), workshop report including evaluation
2	20-21 May, 2015	2 nd regional training, Albania, Durres harbor
3	March 2016	Report on study visit (1) to the selected EU MS Institution (Rotterdam/Antwerp Harbor?)

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Task 1.2.6 Inspection and enforcement in other policy areas

The project team will aim to create links with other sector specific Working Groups defined under Component 2 Environment in order to enhance the capacities of inspections in sector specific areas.

A clear connection can be made to the Nature WG, building on the activities delivered under ECENA in this area in the previous period. Waste inspection has been decided as a second subject in the 2nd WG coordinators meeting (Vienna, Feb. 2015)

No.	Date	Key outputs
1	21 – 23 October 2014	Regional Training Workshop 1 – Nature Inspection (Kopacki Rit Croatia), methodology, materials and report
2	30 September – 2 October 2015	Regional Training Workshop 2 – Nature Inspection (Pelister Parc, FYR of Macedonia) methodology, materials and report
3	3,4 – 5 November 2015	Regional Training Workshop 3 – Waste management, TFS, Landfills, Electric and electronic waste, Waste inspection (Montenegro) methodology, materials and report (Joint workshop with ECRAN Waste WG)
4	May 2016	Regional Training Workshop 4 (2 nd joint workshop), methodology, materials and report, proposed TFS

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Task 1.2.7 Inspectors participation in networking activities and ECENA Coordinators Annual Meetings

IMPEL and **GREENFORCE** are the main networks that should be considered and recommended. Membership of IMPEL is now open for all beneficiary countries within the ECRAN programme. With IMPEL membership a more broad participation of inspectors in the various clusters of IMPEL can be supported.

A new activity is proposed which considers the participation in the European Forum of Judges for Environment (**EUFJE**)

Along the same lines, the newly established European Network of Prosecutors for the Environment (**ENPE**) can be mentioned as a network that helps practitioners to connect

Considering enforcement in the European Union also **EUROPOL/ENVICRIMENET** has to be mentioned as an important organisation

Other networks which are of secondary relevance are INTERPOL and INECE because of their international perspective

The practice established under RENA will continue under ECRAN when It comes to this task. ECRAN will finance participation of up to one representative from the beneficiary country to the relevant meetings of related networks. The request for financing will be addressed to ECRAN Secretariat who will arrange the logistics upon approval of EC.

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Inspectors participation in networking activities

Activity	Participation
12 th IMPEL General Assembly 07-08 May 2014, Brussels	Representatives from Kosovo and fYR of Macedonia
IMPEL TFS Conference 2014 11-13 June 2014, Oslo	Representatives from Kosovo and fYR of Macedonia (on WSR) and from Croatia (Customs Authority) on interagency collaboration
IMPEL- IRI Meeting, Romania, 01-05 September 2014, Bucharest & Danube area	Representative from fYR of Macedonia
IMPEL- TFS National Contact Points Meeting 01- October 2014, Rome	Representative from Serbia
European Forum of Environmental Judges (EUFJE) – International Conference, 16 -18 October, Budapest	Approval of participation of environmental judges by the European Commission

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Inspectors participation in networking activities

Activity	Participation
13 th IMPEL General Assembly 11-12 December 2014, Rome	Representatives from Kosovo , Turkey, Albania

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

ECENA Coordinators Annual Meetings

No.	Date	Key outputs
1	31 January 2014 - Skopje	ECENA WG Annual Meetings materials with workplan
2	10 February 2015- Vienna	ECENA WG Annual Meetings materials with annual report
3	December 2015/January 2016	ECENA WG Annual Meetings materials
4	December 2013– September 2016	Reports from the beneficiaries participating to the relevant meetings of the related networks.

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Activity	Achievements/Challenges
1.2.1 Capacity building on compliance with environmental legislation	On schedule/as much as possible same participants are required in the courses, which is not always the case
1.2.2 External country assessments	No requests received/there are options in combination with IMPEL IRIs
1.2.3 Methodological development - application of IRAM/easy Tools	On schedule/challenge for the countries to implement the system (TK, Serbia, Croatia are actively involved)
1.2.4 Compliance with REACH/CLP Regulations	Scheduled for 2015/two countries to be selected with good/moderate experience
1.2.5 Trans frontier Shipment of Waste (TFS);	On schedule/challenge is to deal with expected large number of participants for the study visit in an EU member state
1.2.6 Inspection and enforcement in other policy areas;	On schedule/ Two out of four events selected to be nature inspection. Other subject selected to be waste inspection
1.2.7 Inspector's participation in networking activities.	Regular requests received/ Challenge IMPEL membership of all ECRAN countries

IMPACTS achieved through the outputs (part 1)

ECENA Outputs	Impacts
Regional Training workshops and site visits In cooperation with IMPEL and experts from EU member states and other networks. Reports and supporting materials.	<ul style="list-style-type: none"> - Introduction of new elements including inspection management tools required for new/adapted legislation (ref. IED, SEVESO III) - Better understanding of cross cutting issues and required approaches (IED/REACH, IED/WFD) - Harmonized approaches in inspection and enforcement using IMPEL tools/guides/analyses, also linking green (nature), blue (water) and brown (industry) areas in the programme of activities as in IMPEL - Increased membership and involvement of ECRAN beneficiary countries in IMPEL - Increased level of know how on IED and SEVESO, nature legislation, water (WFD) and waste (TFS) including legal elements (ref. new IED requirements) and enforcement practice (ref. site visits/common inspection and exercises) and on the roles and responsibilities of authorities and other stakeholders

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

IMPACTS achieved through the outputs (part 2)

ECENA Outputs	Impacts
Regional Training workshops and site visits In cooperation with IMPEL and experts from EU member states and other networks. Reports and supporting materials.	<ul style="list-style-type: none"> - Exchange of experience between beneficiary countries and EU member states including the various approaches and preparatory actions for accession. - Monitoring the state of play in the ECRAN countries (see reports) - Active input/participation of WG coordinators in e.g. organization of site visits and positive evaluations of the courses by the participants.
Follow-up actions at a national scale	<ul style="list-style-type: none"> -Request via ECRAN for TAIEX assistance on IRAM implementation in Kosovo (in preparation) -Request via ECRAN for TAIEX assistance on SEVESO inspection , Serbia (in preparation)
