ECRAN Climate

- ECRAN: The **E**nvironment and **C**limate **R**egional **A**ccession **N**etwork
- 8 beneficiaries: Candidates and potential candidates for accession to the EU
- Designed to assist countries to converge with the EU Climate acquis and with EU climate policies
- 4 workgroups – WG3 focuses on emissions trading

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

ECRAN Activities ETS/Serbia

- Workshops on Monitoring & Reporting (“M&R”) and on Accreditation and Verification (“A&V”)
- Training for operators on Monitoring & Reporting (in Serbia: May 2015)
- Formulation of road-maps on ETS implementation
- Training on setting up a competent authority
- Technical missions, including in Serbia:
 - As-if training on verification (Nov. 2015)
 - Advanced technical training on accreditation (April 2016)
 - Advanced technical training on verification (July 2016)

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

This training

Main aim: support the Ministry and the ATS to prepare for their task to act as the national ETS accreditation body (ATS) and overseeing the tasks of the accreditation body (Ministry)

- Provide in-depth insights in the regulation and practicalities of ETS accreditation
- Discuss the EU ETS accreditation regulations, the ISO 14065 and ISO/IEC 17011 requirements, the accreditation process and all aspects that a national accreditation body will need to deal with under an ETS system
- Provide insights into aspects of the verification of an emission report based on the approved Monitoring Plan that have implications for witnessing of verifiers by the National Accreditation Body

We aim this training to be a practical exchange of expertise; with some ‘classroom listening’ but especially hands-on training
