

KOSOVO NIS

Short / long term plans

Tiranë
March 08-09, 2016

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

First draft plan - summary

Problem definition

Expected result (1-5)

Indicator of achievement ...

Assumptions ...

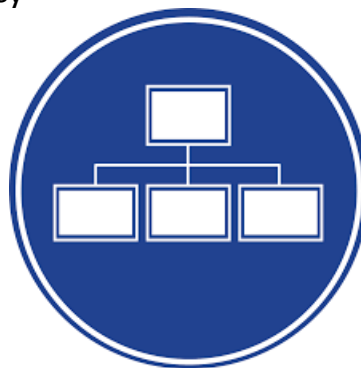

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Problem 1: Institutional Arrangements

- Ministry – Single Entity
- Agency – Inventory Agency
- Hydro-Met
- Others

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Result 1: Functioning Institutional Arrangements:

- Legislation
 - Legal act that determines the roles and responsibilities of institutions in charge of NIS/GhG inventory
 - Two by-laws issued;
 - A legal basis established.

But further developments required.

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Problem 2: Team

Current team: responded to the needs of the moment

- Educative background and experience
- English speaking persons
- Other criteria

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Result 2: Building a team:

- Check with in the existing institutions (MESP –KEPA-HMIK). Assign the appropriate persons with the NIS-GhG related tasks;
- Formal decisions with the list of persons assigned in the NIS-GhG inventory related tasks;
- The list of assigned staff approved By the end of 2017;

Limitations in hiring new persons. Current contracts of the staff, which limits assigning additional task. The existing staff is already overloaded with the tasks.

This Project is funded by the European Union

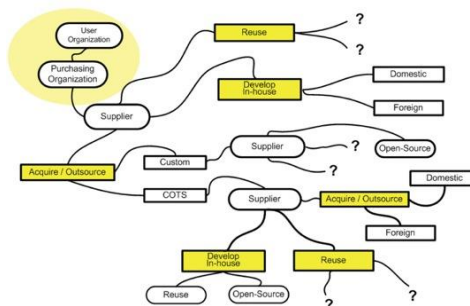

Project implemented by Human Dynamics Consortium

Problem 3: Data supply

And..

- Data availability
- Data reliability

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Result 3: Data Supply security:

- The register with all data groups (detailed) and respective institutions/organizations the data to be provided by developed;
- Discussion and information sessions with all institutions / organizations organized;
- Parties agreed on the data supply system;
- Register and the model of DSA developed by first half of 2017

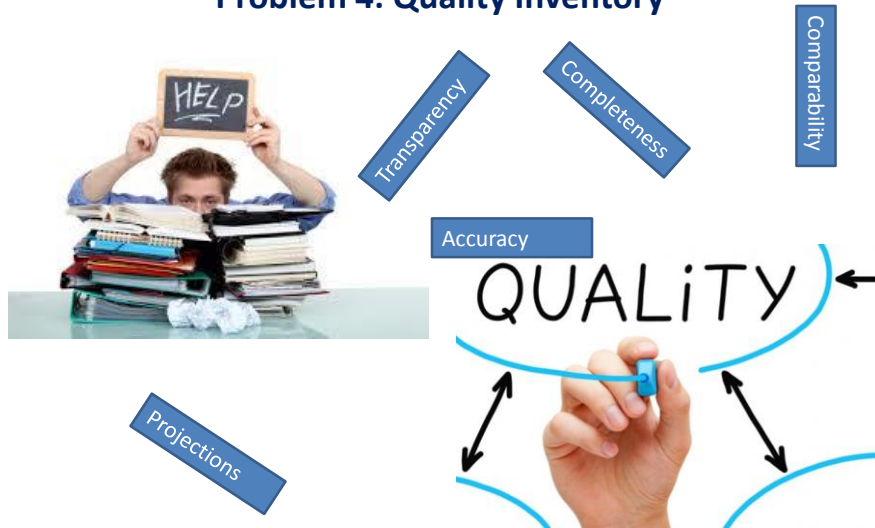

The institutions/organizations are not yet fully aware of the importance of this task. They see this as an additional work for them and hesitate to cooperate.

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Problem 4: Quality Inventory

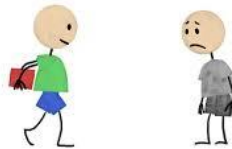

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Result 4: Delivering a quality and effective GHG inventory.

- Full inventory, in compliance with IPCC 2006 Guidelines, which covers 2000 - 2018 time series, developed by the end of 2020

Because of the low budget, and other reasons, the MESP it is not yet committed to supporting the sector and to allocating needed appropriate resources;

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Problem 5: Awareness

- Moving around interest
- The main driver = EU Accession

OR

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Result 5: Marketing the inventory:

- Established Kosovo National Climate Change Council;
- Higher level management of the MESP, other relevant stakeholders involved in different GhG -environment Events.
- The wider public is better informed on importance for the national interest, and international obligations concerning GhG Inventory system. Continuously 2017-2020

Low economical development, high unemployment rate, social problems, prevent the others from dedicating the attention to the GhG related issues.

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Long-term planning

- Continuous system improvements;
- Continuous inventory improvements
 - Through:
 - Increased capacities on
 - Higher tier calculations
 - Projections
 - TACCC implementation
 - Archiving
 - NIR

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Mean time to be considered:

- Engaging or outsourcing for specific sector or activity;
- External institution /Organization;
- External experts (review, QA/QC);
- Linking to in-house activities (air emission inventory, PRTR, EIS);

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

- THANK YOU!!!
