

SEA/EIA in Kosovo

ECRAN workshop in Kosovo
Pristina, March 2016

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

About the ECRAN project

- Local authorities/municipalities and other local stakeholders have an important role in SEA/EIA implementation in practice.
- The main goal of the ECRAN project is to create a core group of the trainers in the ECRAN countries to ensure the knowledge transfer to the local level.
- Within the ECRAN project each country will develop its own training materials and implement ToT on local level.

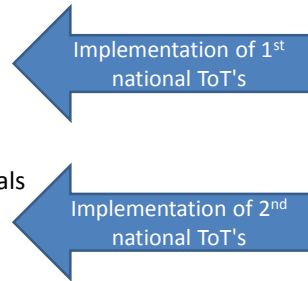

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

ToT scheme

- **1st Training**
 - Development of 1st draft version of ToT materials
 - Approaches and techniques of ToT
 - Planning national level ToT's
- **2nd Training**
 - Exchange of experience from national ToT's
 - Adaptation and improvement of ToT materials
- **3rd Training**
 - Finalization of ToT materials and development of SEA/EIA national level ToT strategies.

This Project is funded by the European Union

Project implemented by Human Dynamics Consortium

Workshop goals

- To explain main steps of SEA/EIA/IPPC procedure.
- To find linkages and differences between SEA/EIA/IPPC.
- To illustrate good EIA practice on case examples.
- To test the draft training package.
- To improve training skills of trainers involved in the ToT scheme.
