General Directorate of Water Management

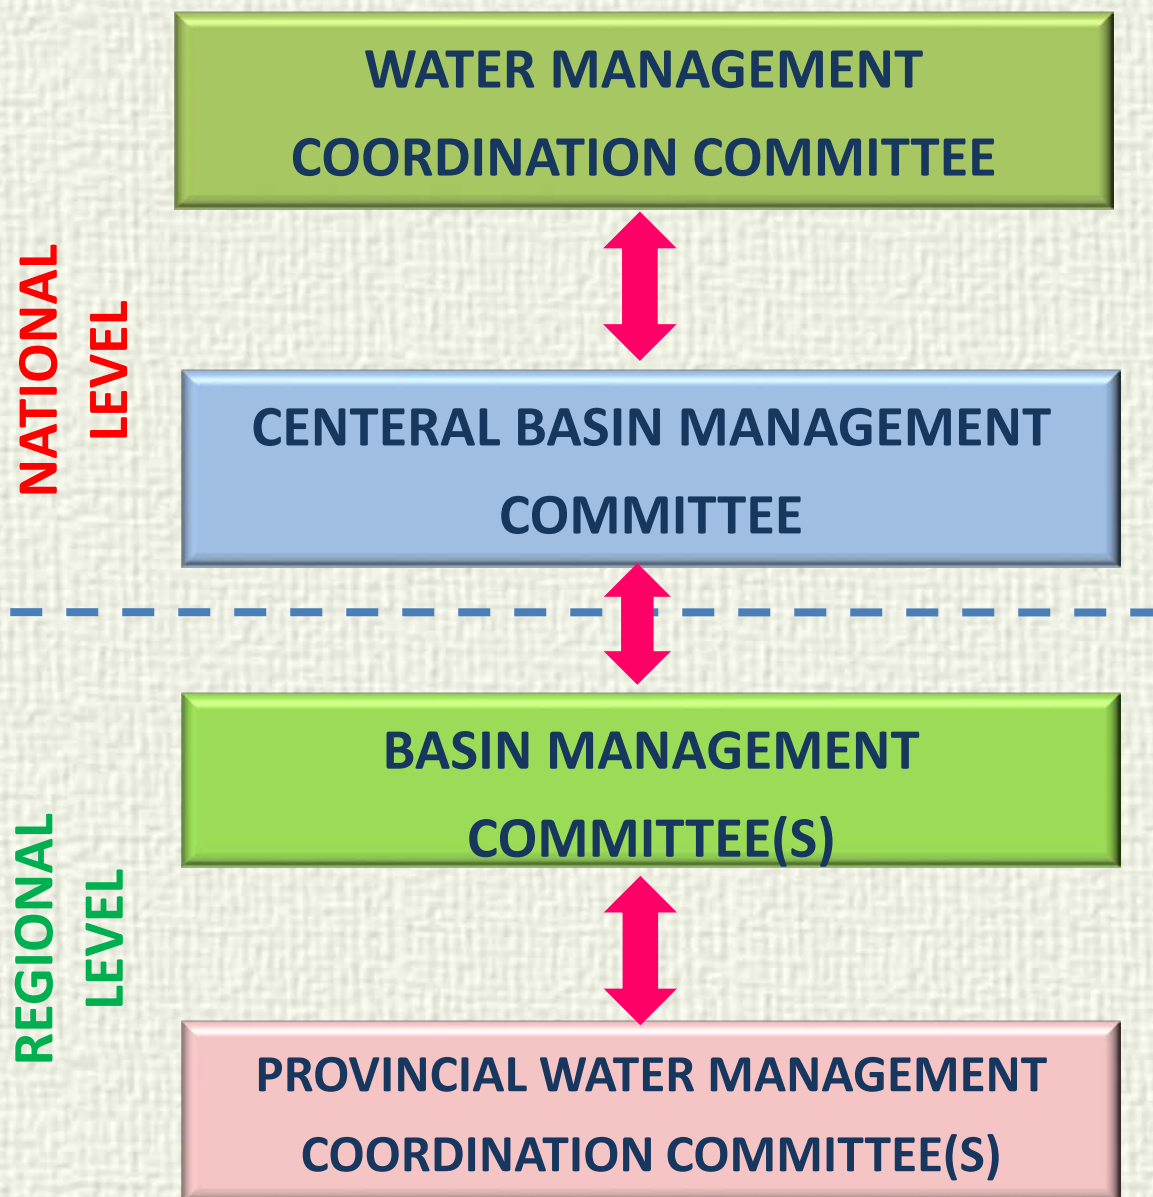

11-13 July 2016, Sarajevo

National Basin Management Strategy (2014-2023) was accepted with the decision of Higher Planning Council in 2014 and put into force.

The target of this strategy is to maintain the sustainable management of basins by achieving coordination and cooperation of institutions and stakeholders

NEW WATER MANAGEMENT ORGANIZATIONAL STRUCTURE

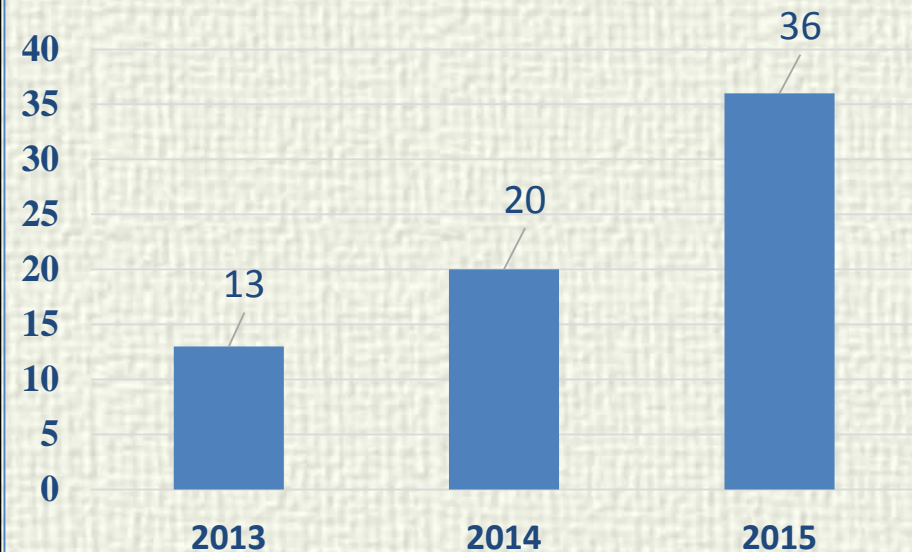

✓ Main goal of this new water management is **more coordinated, cooperated and efficient management** at national and basin levels.

✓ Sustain the participatory approach and so increase of the public participation

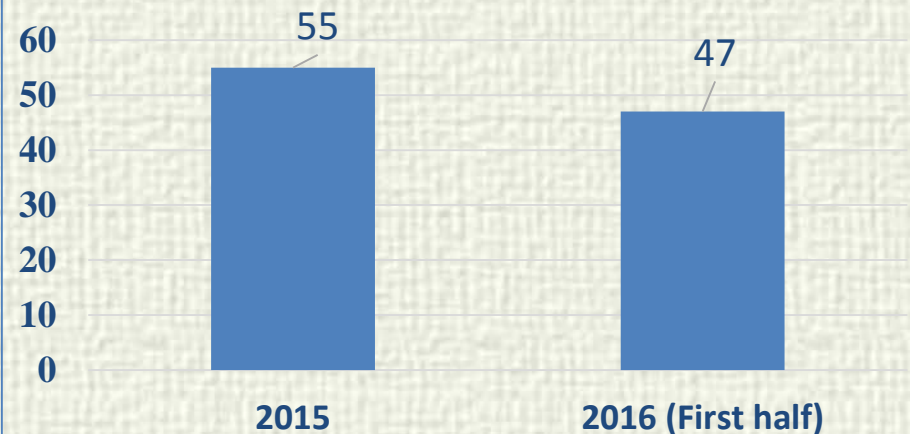

✓ Academicians, NGOs and all related institutions are the part of the structure

NEW WATER MANAGEMENT ORGANIZATIONAL STRUCTURE

BASIN MANAGEMENT COMMITTEE MEETINGS

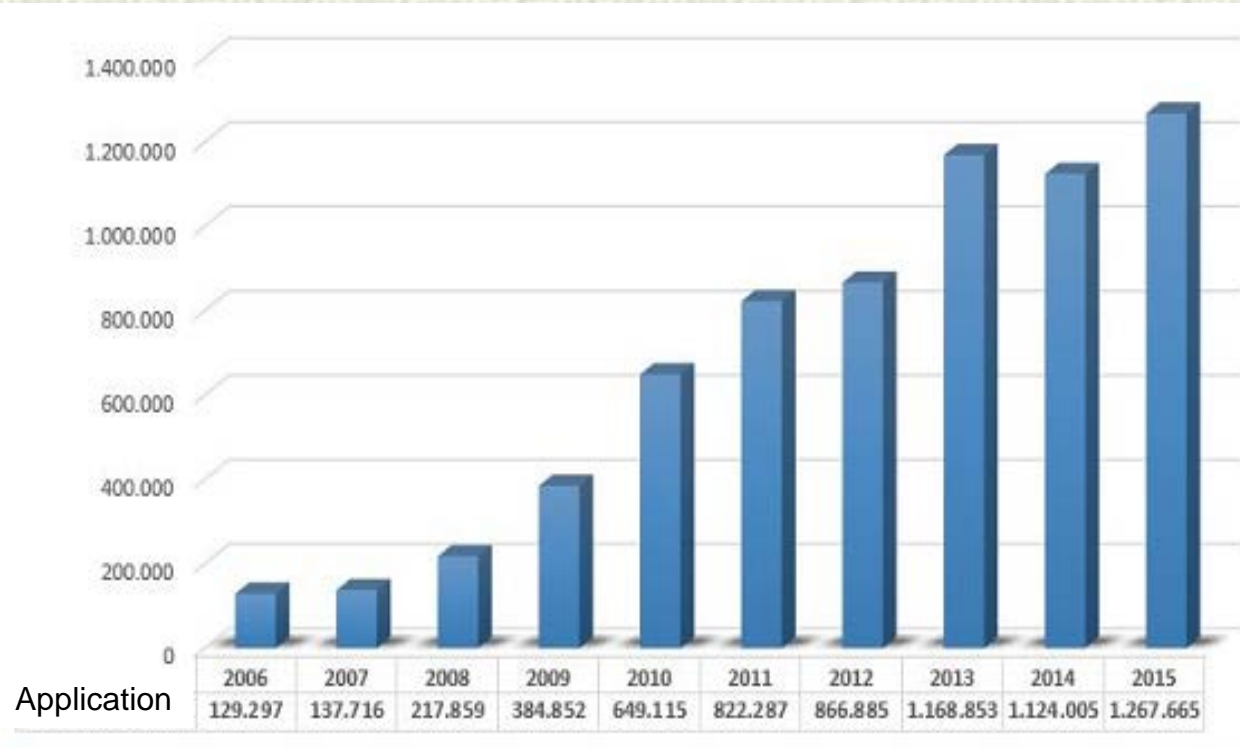

PROVINCIAL WATER MANAGEMENT COORDINATION COMMITTEE MEETINGS

BIMER SYSTEM

Prime Ministry Communication System
